SUMMARY

AI Engineer in final-year B.Tech CSE (AI & ML) building Generative AI systems: multi-agent LangGraph workflows, RAG applications and FastAPI services. I design LLM pipelines where the facts that must be right are checked in code, a human approves key steps, and runs recover from failures.

SKILLS

Languages: Python (OOP, decorators, generators, context managers, type hinting), SQL, JavaScript

AI / GenAI: LangChain, LangGraph, RAG, Agentic AI, Multi-Agent Systems, LLM Tool Calling, Embeddings, Vector Search, Prompt Engineering, Groq API

Backend: FastAPI, REST APIs, API Design, Pydantic

Cloud & DevOps: Git, Docker, Docker Compose, Kubernetes, AWS (ECR, ECS)

Data & BI: Pandas, NumPy, Matplotlib, EDA, Feature Engineering, Data Pipelines, Power BI, Tableau

EXPERIENCE

AI Engineer Intern — Santerra Hygiene Pvt. Ltd., Indore Jul 2026 – Present

- Build AI automation workflows and practical AI applications with Python, prompt engineering and LLM integration for a startup's daily operations.
- Automate business data and finance processes so daily operational workflows run faster and scale with the business.

Data Analyst Intern — Think AI Corporation Apr 2026 – Jul 2026

- Migrated legacy reports to interactive Power BI and Tableau dashboards for key business metrics.
- Ran EDA in Python and SQL and built data pipelines that turn multi-source data into BI-ready tables, gathering requirements with cross-functional teams.

PROJECTS

Multi-Agent Research Paper Writer — LangGraph, FastAPI, PostgreSQL, Groq [Live demo](#)

- Seven-agent LangGraph workflow that turns an assignment brief into a cited research paper; every citation is verified against Crossref in code and a human approves the topic and thesis.
- Runs are checkpointed in Postgres after every step and resume after crashes; a web UI streams live progress.

Multi-Agent Resume Optimizer — LangGraph, Pydantic, Tool Calling [GitHub](#)

- Agents validate, extract and score resumes against job descriptions, combining deterministic ATS checks with evidence-grounded LLM scoring for skills, fit and gaps.

AI Research Assistant — FastAPI, LangChain, RAG [Live demo](#)

- RAG service with document ingestion, chunking, vector retrieval and LLM answers that use only the retrieved passages and cite their source.

CERTIFICATIONS

Oracle Certified Agentic AI Foundations Associate — Oracle Sep 2026

Programming with Python Professional Certificate — OpenEDG Python Institute

Generative AI, RAG, Multimodal & Agentic AI — Acropolis Institute of Technology and Research with Navigate Labs

EDUCATION

Bachelor of Technology (B.Tech.) – Computer Science Engineering (AI & ML) 2023 – 2027

Acropolis Institute of Technology and Research, Indore (Affiliated to RGPV Bhopal), CGPA: 7.94

HSC — Shri Vidya Sagar Public School, Khategaon (MP Board), 81.4% 2023

SSC — St. Thomas School, Ujjain (ICSE Board), 94.1% 2021
